Google Services for PSV Churches

In order to support you all in this time of social distancing and trying out new ways to connect, we have created Google accounts for all of you under the susvalpresby.org umbrella.

It is a free service and comes with a variety of Google services, including “G Suite”, which is Google’s collection of productivity apps. (You can make use of this resource if you want to; and if you’re not interested, you don’t have to do anything with it.)

One of the services built into G Suite is “Hangouts Meet”, which is for online video and audio meetings. It’s a lot like GoToMeeting—and it’s free. The Basic version allows you to set up meetings with up to 100 participants. So, if you’re looking for a way to set up online video/audio meetings, here is one that you can use.

Because of the coronavirus pandemic, Google has opened up the advanced features of Hangouts Meet to all users through July 1—including larger meeting sizes, live streaming, and recording. So, if you’re thinking about live streaming your worship services and want to offer a phone-in option for those who don’t have computers, so they can still listen to your worship, Hangouts Meet has that option.

To log in, you’ll need your user name and password. Your passwords were sent to the churches, pastors, and clerks of Session via email. (If you need your password, contact Scott Kindig as listed below.)

For the churches that are named for the town they are in, your user name will be your town @susvalpresby.org—for example, afton@susvalpresby.org

For the other churches (such as the towns with more than one church, or whose name does not include the town name), see the complete list of user names on the next page.

If you have any questions about these accounts and the Google services that come with them, you can contact Scott Kindig.
